*con trattamento Acid Shield.

Acid Shield è il rivoluzionario trattamento protettivo per marmi e pietre contro agenti acidi, coloranti e grassi. Forma un vero e proprio scudo invisibile satinato al tatto e, senza alterare le qualità cromatiche naturali dei materiali, protegge da macchie, aloni, rigature e perdite di tonalità e brillantezza.

Il trattamento è frutto della ricerca del nostro partner ed è applicato dall'azienda presso i propri laboratori non solo su lastre e altri oggetti piani, ma anche su manufatti tridimensionali, torniti o scavati.

Acid Shield è certificato dal Laboratorio del marmo di Verona in base alla norma UNI EN 12720 (Valutazione della resistenza delle superfici ai liquidi freddi, prodotti di pulizia e agenti macchianti) e consente di superare tutte le problematiche di manutenzione e pulizia dei materiali lapidei naturali.

*with Acid Shield protection.

Acid Shield is a revolutionary protection for marbles and stones conceived against acids, colorants grease. It coats any material with an invisible satin-like shield without altering its natural chromatic aspect and protecting it from stains, etches and losses of brilliance and color.

This treatment has been developed internally by our partner and is applied by the firm on marble slabs and surfaces, but also on 3D-shaped or caved objects. Acid Shield is certified by the Marmo di Verona Laboratory in compliance with UNI EN 12720 regulation (Assessment of surface resistance to cold liquids).

TAPE Corian Top

Monica Graffeo Design

Tape top con lavabo integrato e coperchio piletta removibile.

Tape integrated washbasin top with removable plug drain.

Il top può essere sospeso oppure abbinato alle collezioni: Moode, R1, Esperanto. È disponibile con singolo o doppio lavabo.

The top can be wall hung or can match Moode, R1 and Esperanto collections. It is available with single or double basin.
